

DHL CUSTOM SOLUTIONS

DHL Express works closely with you to design a solution for your company's specific needs.

BUILD DHL FUNCTIONALITY AROUND YOUR SHIPPING SYSTEMS.

You choose the exact requirements you would like built into your own DHL shipping system and we will recommend the right tools. You determine the best integration method for your business and we will provide assistance throughout the entire process. We offer rate, route, label and manifest services.

Benefits

- Combine DHL shipping capabilities to fit your needs
- Choose the right mix of developer tools
- Receive specialized technical support

DHL CUSTOM SOLUTIONS

GET THE EXACT DHL SHIPPING SOLUTIONS YOU NEED – BUILT YOUR WAY AND ON YOUR SCHEDULE.

DHL looks forward to helping shipment processors like you overcome time consuming technological challenges. Building your own solution enables you to decide the exact functionality, automation, and performance to provide your employees. You control your resources, development time and efforts to drive better system performance and ensure successful upgradability. We will coordinate DHL support to help deliver results. We'll work with you to make sure your international shipping needs are not just met, but exceeded.
