

# DHL WEBSHIP

Quickly and accurately prepare and manage your international shipments online.

## EXPORTERS: ONE SIMPLE SHIPPING SOLUTION

DHL WebShip is an all-in-one online shipping solution designed to simplify international shipping tasks for you. Easily set and manage shipment preferences to reduce repetitive data entry. Avoid clearance delays and fees that result from illegible shipment details with our helpful Customs tool. Receive upfront pricing estimates of services available for your specific shipment. Notify your receivers of the shipment status with auto generated emails.

### Benefits

- Provides upfront estimates
- Streamlines shipment process
- Reduces paperwork
- Eliminates costly errors

# DHL WEBSHIP

## ONLINE SHIPPING SOLUTION THAT'S SIMPLE, ACCURATE AND EASY.

DHL WebShip's flexibility lets you ship with either your DHL account number or a credit card. Built-in autocomplete functionality helps you ensure country, city and zip codes are accurately paired to avoid misroutes. User-friendly search engines make it easy to obtain a Schedule B or Harmonized System Code for your commodities. Create a Commercial or Pro forma Invoice as you prepare your waybill.

### FEATURES

- View all available products and services
- Obtain real-time transit and rate quotes
- Submit Customs documents electronically
- Import contacts from other carrier systems
- Store unlimited receivers in your address book
- Send email notification to recipients
- Prepare multi-piece shipments for up to 50 packages
- Print laser or EPL thermal 2D barcodes
- Track shipments by waybill or by shipper's reference
- Create shipping history reports
- Request an Internal Transaction Number for high value commodities while preparing your waybill

### SOLUTION REQUIREMENTS

- Credit card or DHL Express account number and corresponding postal code
- Internet browser
- Minimum 300 DPI laser, inkjet printer or Zebra ZP550 Thermal Printer
